SALISBURY,

The Sixth of December, 1688.

HIS Highness the P. of O. Enter'd this City on *Tuesday*, with Bonfires, and Ringing of Bells, and attended with the Mayor and Aldermen in their Formalities, and the loud Acclamations of the People. He spake to them, and said, *That he came, (being Invited) to Restore their Liberties, and Preserve their RELIGION*; but the shouts of the People would not permit him to go on. He intends to stay here a day or two. Here came a Trumpeter from the three Commissioners last Night, to let the Prince know they were at *Andover*, and to desire a Meeting. The Trumpeter desir'd also a Cessation of Arms, and Liberty of Treating, in Order to a Free Parliament.

It's said here, that the Lords of his Highness's Council met without the Prince, and they declared, that a Free Parliament they took up Arms for, and that they would give Passes for the Coming and Going of any that should come to them; and that they were coming to *London*, in Order to a Free Parliament.

It's also Discours'd his Highness said last Night, That he wonder'd what he had done in his Life, that should give cause to think he us'd to break his Word and Declarations like some others; for nothing could be done but in Conjunction with the Lords and Gentlemen, who had taken Arms (with him, and also in other parts of *England*) in order to settle all things in a Parliamentary way,

The Earl of *Oxford* came hither yesterday. This City and all the Corporations in the West Engage themselves, and declare for a Free Parliament, and the *Protestant Religion*.

Just now Advice is brought, how that the Lord *Herbert* of *Cherbury*, Sr. *Edward Harley*, and most of the Gentry of *Worcestershire*, and *Herefordshire*, with a great Body of Horse, the 5th. Instant, enter'd *Worcester*, and that in a few days their Number would be very great. The Lord *Herbert* with a Party of Horse Seized on *Ludlow Castle*, a place of great strength, and very Rich in Plate; and that another Party seized Sir *Walter Blunt*, the Pop. High Sheriff of *Worcester*, and secured him in *Ludlow Castle*,
